

Head of GCSE Maths

Daniel joined JTC Education to share in his expertise of secondary school level maths. Rather than over-diversifying as a tutor, Daniel has spent his time focussed on one age-group and subject only. This has allowed him to become an unparalleled expert in his field. He is consistently developing new study techniques to help students in secondary schools soar towards the highest grades possible. He is often recognised for his ability to instil a newfound confidence in students with a distaste for maths, as well as pushing top students towards 100% in GCSE Maths.

EDUCATION

- ◆ BSc Mathematics, Imperial College London

TUTORING EXPERIENCE

Daniel began working as a professional tutor in prestigious London-based tutoring agencies. He made the move to online in 2020 and has been working full-time with JTC Education ever since. He has an impressive track-record in making secondary school students' grades rise in maths. Last year alone he took one level-4 student (retaking their GCSE Maths with a view to achieving a level 6) to a huge level 8 in the space of one year.

SUBJECTS / EXAM BOARDS

- ◆ [KS2 Maths](#)
- ◆ [KS3 Maths](#)
- ◆ [IB MYP Maths](#)
- ◆ [GCSE Maths: All exam boards](#)
- ◆ [IGCSE Maths & Further Maths: All exam boards](#)

TESTIMONIALS

- ◆ *"Daniel is simply brilliant. His follow-up emails always leave everything so clear and are a pleasure to read. Somehow he has managed to turn my daughter around from having maths as her worst enemy to actually, by some magic, enjoying it! I can only put this down to what a personable and approachable teacher he is, having spoken to him myself on several occasions at the end of lessons."*—Parent of year 9 student
- ◆ *"I really look forward to my lesson with Daniel every week. He is so fun to work with that I actually don't mind doing the homework. That's probably because I can do it much better once he helps me with it too. I used to find maths impossible but now I just think of it as an interesting challenge that I can do."* —Year 8 Student, IB MYP
- ◆ *"Daniel is my favourite teacher ever. Sometimes he doesn't even feel like a teacher we have so much fun. But we do also do loads of work. Loads more than I do in school."*—Year 7 Student, UK curriculum
- ◆ *"Really can't fault Daniel as a teacher. The red-pen study method and careless error sheets he uses are so simple but also so effective. My son said that reading them before his final exam made all the difference."*—Parent of GCSE Student
